LOGAN, CACHE COUNTY, UTAH, TUESDAY, FEBRUARY 26, 1918

SIXTEENTH YEAR

PAN MOTOR CAR COMPANY WILL OPEN IN UTAH

The Pan Motor car, the Queen of the Highway, created the big sensation of all cars at the Chicago, Twin City and Kansas City shows and has taken the lead of all new cars and stands alone from the standpoint of speed, graceful lines, power and sturdiness of all cars selling at less than \$1600, the price is \$1250.

The Pan car is now being turned out in a new factory at Saint Cloud, Minnesota, and production will be increased greatly as soon as the large new, fireproof and thoroughly modern factory, three blocks long and 170 feet wide, is completed.

The new building, reinforced concrete with steel sashings and wire windows, is up, and the finishing touches are being put on the building as rapidly as the weather will permit.

The Pan car is thoroughly up-to-date with a Continental motor, self-starter, two unit lighting system and features which are general on the better class of cars, but goes a great deal farther in providing other conveniences never put on other cars.

One of the unique Pan features, a part of the equipment of every car, is the compartment tank which is built into the rear of each automobile.

This combination tank contains five compartments. There is a large tank for drinking water, which could be used for the machine in case of necessity. Then there is a compartment for foods with a refrigerator to keep foods in perfect condition. The refrigerator is placed at one end of the canteen and keeps the water cold for drinking as well as keeping the food in good condition. Another compartment is for tools.

The other two compartments are for excess gasoline and oil. The tanks are large enough to carry a supply that will enable the motorist to drive the machine to a point where more gasoline can be had, no matter how far out in the country he is when he runs out of gasoline. The oil will enable the driver to lubricate the machine at any time and keep it in perfect condition, should he forget to give the car enough oil before beginning a trip.

A motometer of neat design crowns the radiator cap. It is similar to a thermometer and when the mercury climbs into a certain circle, notifies the driver that he should not drive too hard as the water is getting hot. As well as being useful, this feature adds distinction and class to the car.

Conspicuous lens, which meet dimming law requirements in all states, Remy starting, ignition and lighting, the Stewart Warner speedometer and standard equipment of the highest class throughout are used.

The Pan Motor Company is a \$5,000,000 corporation with nearly 21,000 subscribers to stock at present. When questioned as to choice of location, S. C. Pandolfo, president of the company answers promptly, emphatically and convincingly by saying: "Why Saint Cloud, Minnesota?"

"Because: "Saint Cloud is in the state which produces four-fifths of the nation's iron ore.

"Saint Cloud is only 125 miles from the \$25,000,000 steel mills at Duluth.

"Minnesota's forests annually produce 3,000,000,000 feet of lumber.

"The Mississippi river dams generate power to run huge plants and relieve factories of coal shortage worries.

"The Great Lakes and Mississippi river, both nearby, provide cheap water transportation.

"Saint Cloud is on two transcontinental railroads and is closer to four-fifths of the United States than Detroit and automobile centers.

"Saint Cloud is far removed from labor trouble and the cost of living is low.

"Therefore, with materials nearby and cheaper because of little transportation cost, how could we locate elsewhere?"

RICHMOND LIBRARY BOARD MET THURSDAY

Richmond, Feb. 23.—The library board met on Thursday evening and as a part of the procedures of the meeting Mr. G. M. Thompson resigned from the office of secretary of the board and Miss Lulu Burnham, the librarian was appointed to fill his place. A large supply of books have just arrived and are now being classified and labeled ready for the public's use.

After the usual routine of business was disposed of Mrs. H. A. Adamson asked for permission to hang the service flag in the library. This flag was presented to the city by the Daughters of the Pioneers, and now contains twenty-nine stars each representing by name or number, the boy from here that is in our country's service. The stars will be sewed on by the mother, wife, sister or sweetheart of the boy whom the flag represents. The history of each boy will be added to his star thus making a most interesting record for himself and relatives.

J. W. Funk, president of the board expressed his appreciation of having it placed in the library and the place for hanging it was designated on the north wall opposite the main entrance. The following names are now to be marked by a star:

Captain E. G. Woolley, Austin Rainey, Ephraim Woodland, Otto Adamson, Orval Merrill, Horace Pack, Bert Spackman, Adrien Altkon, Ezra Johnson, Clinton Buxton, Osborne Johnson, Martin Sander, Walter Wilcox, Ernest Tripp, Justin Shepard, Ruel Merrill, Herbert Van Noy, Jas. Thompson, Axel Carlson, Masel Merrill, David Carlson, Arthur Shrivens, Howard Balf, Ivan Larson, George Anderson, Don Wright, Wallace Burnham, Lionel Merrill and Alvin Lawrence.

On Saturday election of officers for the Industrial Club will take place. Mr. Alvin Lawrence is home on a twenty days furlough on account of his health.

The Primary Association gave the kiddies a party Valentine Day. Valentines were distributed to each one and all were remembered with a token of the season.

Once more block or district meetings are held in our town and we think the results will be good as they tend to bring the ward members closer together. Such meetings some of us will remember were held about twenty-five years ago and many pleasant memories are connected with them.

The income tax is not bothering many people of our little burg as few, if any, have a clear income of \$2000 yearly.

The Industrial Club held their annual club party on Wednesday evening and all present had a most enjoyable time. Dancing and refreshments were the pleasures.

Mr. Noah Woodland while playing basketball in Hyrum, fell backward striking the back of his head upon the floor with the result that he has been ill and confined to his bed from the effects.

The Daughter of the Desert which was presented under the auspices of the South ward Relief Society was well attended and much appreciated by all present.

Boys have arrived over the stork route at the homes of Mr. and Mrs. LaRue Merrill and Mr. and Mrs. Leon Farnes. All doing fine.

A short play interspersed with fancy national dances were given at the Scandinavian Hall last Wednesday evening. A most enjoyable time is reported.

Priesthood meeting was observed here Saturday where in the ward of the stake were well represented. Counselor William Waddoups of Lewiston, and President Alma Merrill, were the speakers in the general meeting. Mrs. Clara Sparks and Mrs. Thornley of Smithfield rendered a beautiful solo.

Mrs. Roscoe Merrill who has been very low is reported a little on the improve. Her parents are here from Mantle.

The big North ward reunion was held on Friday and the committees are certainly to be complimented on

Activities Of The Farm Bureau

A great deal of interest is being shown in Cache Valley in better feeding, breeding and testing of the dairy herds. This will result in an increased production, and greater profit to the producer. The idea is to eliminate the unprofitable animals by testing to use best bulls and to improve in the feeding and care of the cow. A good pure bred dairy bull in every locality for dairy cows, is the slogan of the dairy committee. The interest that is being taken in the work points to a successful campaign for 1918.

On February 16, thirty dairy men from Richmond, Smithfield, and Hyrum visited the dairy herds and barns of David Kerr, John Darley, William Darley, T. S. Bradshaw, T. D. Stewart, and others of Wellsville. The visiting party was very much pleased with the good things they saw. It was clearly evident that Wellsville is alive to the dairy interest and the crowd appreciated very much the hospitality shown them during the visit. On February 23, a large crowd from Wellsville, Hyrum, Hyde Park, Paradise, College ward, and Logan, visited the splendid herds in Richmond.

Seventy farmers went through Logan on the 12 o'clock car. The Richmond dairymen met them with sleighs at Carson's Spur. They visited

their efforts and success of the event. A fine luncheon was served and a splendid program rendered in the afternoon and evening. A children's dance was also given in the afternoon and one in the evening for all over sixteen years of age.

Next Saturday evening a masquerade will be given at the opera house where all of mutual age and above are invited to attend.

Pioneer meeting will be held the first Thursday of March.

Milton Woodland who has been at home visiting with his mother, returned to his work in Butte, Montana last week.

Mrs. Dan Kennedy has been in Franklin for a few days at the bedside of her mother who has been quite ill.

Mrs. Ralph Merrill entertained on Saturday in honor of her husband's brother, Mr. Madison Merrill of Preston who has resigned his position as a teacher to enter the service for Uncle Sam. The party consisted of the families.

Mrs. Ray Van Noy and Miss Kate Van Noy entertained at a slumber party Sunday evening. Games, music and a delicious supper were the features of the evening. Miss Kate has accepted a position as clerk in Mr. W. F. Jensen's candy store in Logan.

Mrs. Cora Dine spent part of last week in Hyde Park at the bedside of her sick brother.

Mr. Robert Webb who has visited among relatives and friends here for some time has returned to his home in St. Anthony.

Mr. Marland Robinson has returned from his trip in California.

Mrs. William Roland entertained last week for her daughter Louise. The occasion was her seventh birthday. Fifteen little guests were present.

A surprise party was tendered Mr. and Mrs. Silvertsen on Tuesday evening. The evening was pleasantly spent in games, music and refreshments.

About a week ago ten of our leading dairy men under the auspices of the Farm Bureau visited the dairy herds of Wellsville. They were joined by twenty men similarly interested, in Smithfield. At their return they report some very fine dairy farms in that town and special mention is made of Mr. John Darley's herd, arranging second best grade herd in the United States and having the best barn in Cache Valley.

The visit made by these gentlemen was returned last Saturday and a company of about eighty men from Wellsville, Hyrum, College, Paradise, Logan, Hyde Park and Smithfield visited the dairy farms of Alma Carson, John T. Caine, C. L. Funk, John McCarey, N. K. Nelson, Parley Nelson, J. W. Hendrick, Fred Whittle and Henry Christofferson. During luncheon which was served in

Mr. Carson's herds of Holsteins, then the Caine livestock Jerseys and Berkshire hogs, then on to C. L. Funk's, N. K. Nelson's, Henry Christofferson's and Mr. Whittle's Holstein herds and Wooley's Guernseys, hence to the Richmond Club rooms where they received the hospitality of the Richmond dairymen in the form of sandwiches and buttermilk. While at luncheon Mr. J. W. Hendricks gave a talk on the outlook of the dairy industry in Cache County. He advocated the use of cheap feed by using corn silage and the use of good bulls in building up our dairy herds.

County Agent Wrigley, spoke on the advantages of excursions to the farmer and emphasized the use of good bulls throughout the county.

Mr. John A. Israelson of Hyrum, acting chairman, called upon Director John T. Caine, III, of the Agricultural College, for a speech. Mr. Caine emphasized the importance of farmers excursions also spoke of the duty of farmers in winning the war.

They left the club rooms to see P. N. Nelson's and J. W. Hendrick's Holstein herds.

The trip was an inspiration to all the visitors. They went home with a better idea of dairying which will result in a richer and fuller dairy industry in Cache Valley.

THE 'SONORA' TO BE SOLD IN THIS CITY

The A. G. Lundstrom Furniture Company has been successful in landing the agency for the famous Sonora Talking Machine which is indeed a beauty and has won the favor of all those who have had the privilege of hearing it play some selections by the world's greatest musical artists.

Manager Lundstrom has equipped one corner of his store purposely to have this machine on display and a nice rest room has been fitted up where people can go and see this machine as well as hear it.

The Sonora is designed to play all makes of disc records without the addition of extra devices of any kind, the importance and desirability of this cannot be over estimated.

At the Panama Pacific Exposition the Sonora won the highest score for tone quality.

The remarkable beauty of the Sonora to the eye is due both to its exceptional fine finish and also to its graceful flowing lines. This is a real accomplishment in standard cabinet design. The bulge effect being found formerly in very expensive furniture. The tone is controlled at its source, the only proper place. It is another patented feature that helps to make the Sonora the very best that human ingenuity has been able to devise. There is no muffling, no blurring, no marring of the sound, merely a transition from loud unimpaird by the lapse of time and steady use.

The automatic stop is thoroughly reliable, is very simple in its construction and just as simple in its operation. It removes the annoying necessity of jumping up at the close of a record to shut off the motor in order to prevent damage.

Watch Saturday's paper for the specifications of this beautiful talking machine.

WITH A LOCAL PSYCHIC

Question: When will the world war come to an end?

Answer: The beginning of the end will be about March 1, 1918, and after six weeks hard struggle, peace may prevail.

talks from J. W. Hendricks, John T. Caine, III, and County Agent Wrigley of Logan.

The North Cache High School played basket ball with the South Cache at Hyrum last Saturday evening resulting with a score of 21 to 9 in favor of South Cache.

SERVICES HELD IN TABERNACLE FOR MISS BARBER

A large gathering of friends and relatives were in attendance at the Tabernacle Sunday afternoon to attend the funeral services over the remains of Miss Louise May Barber, county recorder for Cache County, who died at the home of her parents in this city on Wednesday last.

The array of flowers, ranging from great set pieces, sprays, wreaths and bouquets, covered the fronts of both stands and the casket itself. A full choir was present with Chorister S. B. Mitton, and Professor S. E. Clark at the organ.

Following the opening hymn, President S. F. Ballif offered the invocation, after which Elder Frank H. Baugh, Sr., sang with much feeling "Some Time We'll Understand."

Bishop B. G. Thatcher expressed a common source of wonder why youth and beauty with everything to live for, should be cut down by the ruthless scythe of the grim reaper, while here and yellow age, full of pain and suffering, ready and willing to pass on, still lingered. The chief lesson in life is to so live that when the parting time comes it will find us prepared.

Elder James A. Langton quoted Carlisle's statement that "death is the greatest sorrow that can lie in the cup of human woe;" but denied its application in cases like this, where the departed soul returns pure and unsullied to its Maker. There is bound to be felt in the hearts of the parents somewhat of the sentiment expressed by King David when he cried "Absalom, my son, would that I had died for thee," yet one great reason for this grief and for the expression, was lacking. Absalom had been cut short in a sinful career, with no time for repentance, while in this case that great cause for grief was lacking.

Professor William Spicker played a violin solo, with piano accompaniment by William Peterson.

Elder E. J. Bell of the Board of County Commissioners read resolutions of condolence passed at a meeting of the county officials, paid high tribute to the efficiency of the departed in her official capacity, and to her quiet, unassuming, friendly manner in intercourse with her official associates and companions.

Bishop C. W. Nibley remarked that there are many things worse than death, which, sooner or later must come to all. Could we sense the glories awaiting those who die in the Lord, we would not, in such a case as this, mourn as those without consolation. If this life were all, then indeed, should we have cause to mourn, but we have the blessed knowledge that it is but a brief stopping place, bridging the gap between two eternities.

Miss Nora Eliason sang, "Link Divine," with violin obligato by Mrs. L. Linnartz and piano accompaniment by Mrs. C. W. Hansen.

Elder Joseph Morrell of Ogden, felt to sympathize deeply with the bereaved parents and family in their deep grief; but as we drink to the dregs of the cup of sorrow we gain spiritual power. When in full health and vigor we give too little thought to the hereafter, and leave uncultivated the spiritual side of our nature. We are apt to pass along heedlessly, neglecting the kind acts we could perform, the kind words we could say, until possibly too late.

Bishop Rice, in behalf of the family thanked all kind friends who had shown so much solicitude, and those who had participated in and attended the services.

The choir sang, "Let the Lower Lights Be Burning," and Elder J. E. Carlisle pronounced the benediction.

Many relatives and friends accompanied the remains to the cemetery where Elder James J. Facer dedicated the grave.

Mr. and Mrs. Vern Nelson of Hyrum, were in town Monday on business.

WHEN THE NORTH & SOUTH COME TOGETHER

Harry Stoney just received a reply from the telegram which he sent to Eddie Wilcox last Saturday advising him that Mr. Wilcox was unable to come up for the game. Mr. Stoney is very much worried as he had figured on Wilcox to play as one of his forwards on the First North team. He is now arranging to bring Jack Hill down from Montana as he feels a little uneasy over the lineup which Center Street is playing against him. When he first commenced lining up his team he picked on Jarvis, Stiefel, Lindquist, Stubby Peterson, Nielson, Mohr, Hovey, Squires, Fred Parkinson, Vern Srockett, but some one informed him as to the line up of Center street, and he immediately got busy to bring some of the old stars back into the ring.

It is understood that telegrams were sent to Watkins, Hill, Wainward, Rawlins, Cy Young, Roskelley, all old stars from the B. Y. C.

The Center street detectives have been working on the case the last few days and are now fully convinced that a dark horse is going to be run in which might be Van Pelt, the old University star, but C. M. Christensen, manager of the Spande Furniture Company and head detective on the Center street bunch in a recent conversation with Walter M. Everton, made the statement that Will Watson, Jesse Earl and H. E. Perry, had been measured up now, and fighting togs were being made by one of the local tailors so that they too, will be on the job and line up with their comrades. And folks, you can expect a lot of good rooting from these boys, as they have all been taking voice culture up at Fennesbeck Knitting Works since they first heard about this big event.

Dr. Chadwick and Dr. Rose, even though they are opponents so far as this game is concerned, as Doc Chadwick is from the North Pole and Doc Rose is from the Sunny South, they too, were seen walking along the street yesterday arm in arm, and claim that they will be on the job to see fair play.

C. M. Christensen, the head of the Center street detective forces, also brought in the report last night that John L. Coburn had installed a wire hoop in the southeast corner of his dining room and had there been practising the pitching of fouls. It is said that out of 100 trials John made 102 baskets. There might be a question arise here as to his making 102 points out of 100 trials. Anyone desiring the information call on Guy Cardon at the Bluebird, as he has been keeping a card file which gives the data on every player, both from Center and First North streets. This information can be had up until three o'clock this afternoon at which time all the records will be turned over to City Recorder William Larson and will emphatically states that none of these books will be open for the public after reaching his office.

In conclusion we wish to draw your attention to the fact that Orval Adams' ladder has been thoroughly tested. The butcher knife of H. J. DeWitt has a keen edge and all is in readiness for the big affair which will be staged at the B. Y. gymnasium tomorrow night.

Everybody be there and witness the rivalry between the North and the South.

APRIL 6 IS URGED AS WIN WAR DAY

Washington, Feb. 24.—April 6 will be the anniversary of the entrance of the United States into the war. Suggestion was made today by William M. Lewis of the national committee of patriotic societies that that day be fittingly observed as national "Win the War" day.

Efforts will be made to have church bells ring throughout the country at noon, every band play, "The Star Spangled Banner," factory whistles blow and flags unfurled everywhere.
